

DR. HARRIGAN'S ADVICE TO THIN, NERVOUS PEOPLE

It's worth your while to read what a New York specialist has to say about the nerve and brain cell builder that Peoples Drug Stores and other leading druggists sell so much of these days. He writes:

"Let those who are weak, thin, nervous, anemic or run-down, take natural unadulterated substances such as Bitro-Phosphate and you will soon see some astonishing results in the increase of nerve energy and strength of body and mind."

Bitro-Phosphate is a pure organic phosphate such as good physicians prescribe to increase weight and create abundant nerve force.

CAUTION: Although Bitro-Phosphate is an excellent aid in relieving weak, nervous conditions, its use is not advised unless increased weight is desired.

MUST CUT BUDGETS TO REDUCE TAXES

Congress Plans Heavy Pruning of Appropriation Bills Now Pending.

Congress has failed to decrease appropriations to the point where they will permit lower taxes, according to members of the Senate Finance Committee and the House Ways and Means Committee.

Appropriation bills passed during the session which just closed, together with the army and navy appropriation bills to be passed during the special session of Congress, will total about \$1,350,000,000, or practically the same as provided for the present fiscal year. Speaking of the appropriations and their relation to taxes, Senator Furness of Pennsylvania, chairman of the Senate Finance Committee, said efforts would have to be made to cut appropriations. He referred specifically to agriculture appropriations, which will total more than \$29,000,000 for the next fiscal year.

Members of the House Ways and Means Committee and Appropriations Committee favor further reductions. The pruning will be greatest in the Sundry civil and legislative, executive, and judicial appropriation bills. There is little thought that any effort will be made to prune the army or navy bill when it comes up for consideration at the special session.

The Administration is pledged to adequate naval protection, and the attitude of President Harding before he took office that the army should be of adequate size is maintained by him. The cuts to be made in agriculture appropriations, suggested by the head of the Senate Finance Committee, would include the elimination of seed distribution by Congressmen; several investigations provided in recent agriculture appropriation bills, and appropriations of a more or less local nature.

18-POUND CALIF. BABY NAMED AFTER HARDING

PORTERVILLE, Calif., March 11.—What is believed to be California's biggest baby today is sporting a new monicker.

Papa and Mamma Embry, of Terra Bella, have decided to call him Warren Harding Embry.

The lusty youngster, who weighed eighteen pounds and three ounces at birth, is gaining rapidly.

Edison's Aide Dies.
ORANGE, N. J., March 11.—Francis R. Upton, former associate of Thomas A. Edison, died yesterday at his home here after prolonged illness. He was the first president of the Edison Pioneers, and had helped the famous inventor work out a complete system of electric light by incandescence.
